

## **TB Tests**

Berkeley Schools Volunteers accepts different forms of TB tests (blood, skin, chest xray, or TB risk assessment) as long as they are negative and from the past 4 years.

To be eligible for the TB risk assessment, you must meet with a licensed health care provider and complete the Risk Assessment Questionnaire. If you answer 'yes' to any of the following questions, you are not eligible to use the risk assessment and must complete a different form of TB screening.

### **Risk Assessment Eligibility**

1. Do you have one or more signs and symptoms of TB?
2. Have you had close contact with someone with infection TB disease?
3. Were you born outside of the U.S., Canada, Australia, New Zealand, or a county in Western or Northern Europe?
4. Have you travelled to a country with high TB-prevalence for more than one month? (Any country other than the U.S., Canada, Australia, New Zealand, or a country in Western or Northern Europe.)
5. Are you a current or former resident or employee of a correctional facility, long-term care facility, hospital, or homeless shelter?
